product description: Cable tray is designed to create a cable route.

The joining of the trays is performed by using of the couplings NIXS and by the bolts NIXSM 6X10.

The tray is connected to the accessory directly, with no couplings; the tray is inserted into the accessory. Fasten using NIXSM 6X10 bolts.

configuration: IX - stainless steel AISI 304  
(AISI 316, AISI 316L only to order)

sales amount: à 2 m

certification: EN 61537:02

storage: EN 60721-3-1

The graph shows the maximum allowed even loading of the tray in relation to the distances of the supports.

inner usable cross-section of the channel

The values state the number of cables with the tray at 50% full. Orientation diameters of the cables CYKY.

The values are mathematically calculated. The limit values (small tray x big cable or contrariwise) it is necessary to consider combination of the tray and diameter of the cable and used them with reference to technical conditions.
