Control stations and enclosures

Plastic control stations XALE

For Harmony XB7 control and signaling units Ø 22

Presentation

Control stations XALE are designed for various applications and predetermined requirements.

- In buildings, they control garage doors, rolling shutters or smoke extraction vents.
- In the tertiary sector, they are fitted to simple machines and small lifting systems.
- In the industrial sector, they are fitted to small machines with 2 or 3 actuators or mass production machines (packaging, materials handling, machine tools, etc.).

Control stations XALE are available as complete products or as empty enclosures.

Complete stations

- The complete XALE control stations are supplied fitted with one, two or three Ø 22 mm/Ø 0.87 in. control and signaling units from the Harmony XB7 range (1).
- The fitted control stations are ready to use. Electrical connections to the mounted units are made by the user.
- Complete XALE control stations meet simple control and/or signaling requirements by factory pre-fitting of:
 - 1 Pushbuttons, with or without marking,
 - 2 Pilot lights with integral LED,
 - 3 Illuminated pushbuttons with integral LED,
 - 4 Emergency stop and Emergency switching off mushroom head pushbuttons,
 - 5 Selector switches with standard handle,
 - 6 Key switches,
 - 7 Legend holder with legend,
 - 8 Fixing nut,
 - 9 Anti-rotation plates for selector switches, key switches, Emergency stops and buttons with rotatable marking.

The mounted units are interchangeable: the equipment fitted as standard can be modified in order to meet customised applications.

Empty control stations

- The XALE enclosures supplied empty comprise:
 - A light grey "RAL 7035" base 11 (material: ABS),
 - A light grey "RAL 7035" or yellow "RAL 7021" lid 10 (material: ABS) with 4 captive fixing screws,
 - Two fixing screw caps (must be fitted to ensure double isolation and sealing) 12
- The empty enclosures are available with one, two or three cut-outs of equal diameter
- Depending on the needs of the customer, all the catalogue listed Harmony Ø 22 control and signaling units XB7 (1...6) can be fitted on these empty enclosures for customisation of the product (1)
- The units are fitted on the lid of the stations. Selector switches, key switches, Emergency stops and buttons with rotatable markings are held in position by an anti-rotation plate 9 (2)
- Legends and legend holder type ZBY 7 listed in the catalogue complete this customised equipment.

Environment

- Degree of protection (conforming to standard EN/IEC 60529): IP 54
- Ambient air temperature for operation: - 25 to + 55° C/-13 to + 131° F
- Conformity to standards:
 - EN/IEC 60947-1, EN/IEC 60947-5-1, EN/IEC 60947-5-5 and EN/IEC 62208,
 - EN/IEC 60947-5-5 and IEC 60364-5-53 (mechanically latching Emergency switching off pushbuttons, see page 6).
 - EN/IEC 60204-1, EN/ISO 13850, EN/IEC 60947-5-5 and machinery directive 98/37/CE (trigger action and mechanical latching Emergency Stop pushbuttons).
- Products certifications: CE.

Mounting and fixing

- Control stations XALE easily mount on a support using two fixing screws. Two fixing screw caps 12 and a rubber seal (3) ensure the sealing and electrical insulation of the installation (IP 54 degree of protection).
- Control stations XALE incorporate 4 or 6 ISO 20 knock-outs (depending on the model) to enable cable entry irrespective of the fixing position of the station: horizontal or vertical.
- A commoning/earth terminal 13 can be mounted in the base of the station if required. To be used in relation to the type of installation (to be ordered separately).

(1) Except pilot lights type XB7EV8●P supplied via integral transformer.

(2) Included with Harmony Ø 22 mm/0.87 in. control and signaling units XB7.

(3) Included with complete stations and empty enclosures.
