Manufactured in PRC

 thorgeon

-  16
-  110/230V
-  CHANNEL
-  DIN
-  150h
-  MODULE
-  SERIAL
-  IP20
-  -10°C
-  +50°C

The products according to the time set by the user, automatically turn on and turn off the variety of electrical equipment. Control object lights, light boxes, neon signs, production equipment, agriculture, aquaculture, ware house exhaust dehumidifier automatically preheat optimal control products, such as radio and television equipment.

SIA "ATTA-1", Daugavgrivas street 77,  
Riga, Latvia, LV-1007

4751029899354

Developed in Latvia

## Technical data

Operating Voltage	AC 110V/220V/240V 50-60Hz
Power Consumption	2.5VA
Contact Capacity	AC 220V 16A
Contact Resistance	$\leq 50M\Omega$
Inaulation Resistance	$\geq 100M\Omega$
Operating Temperature	$-10^{\circ}C \sim +55^{\circ}C$
Accuracy	$\leq 2S/day 25^{\circ}C$
Conract Capacity	Lamp Load : 1000W    Resistive Load : 16A/250VAC( $\cos\Phi=1$ ) Inductive Load : 3A/250VAC( $\cos\Phi=0.6$ )
Working reserve time	24 hours charged can lasts 150 hours
Full Timing Range	24h
Storage Battery	150h
Minimum Setting Unit	15 Minuters
Setup Times	15 Minuters/time 96 Time
Dimension	90×54×65mm
Weight	152g
Installing Mode	DIN rail mounting
