Solar lamp SOLARA PLATO with the possibility of changing the light color (CCT), with a power of 1 W. Thanks to the ability to change the color temperature (CCT) in the range from 3000K to 6000K, we can adjust the light color depending on our needs and preferences. It is extremely economical to operate - their power output is 1 W. It has a very high degree of protection IP65, providing protection against the ingress of dust and water jets. The CCT function allows you to changes to the colour temperature of light (3000/4000/6000K).
