LED source LED GLOB 8 W with E-27 base and in the shape of a large glass sphere, which is ideal for both open and suspended lamps without a diffuser.. It is characterised by a high light efficacy 131 lm/W. It is even more energy-efficient thanks to the use of durable COG filaments, which consume very little electricity. Lights up with neutral light - the most universal colour (4000K), which is suitable for the rooms we use on a daily basis, ensuring comfort during everyday activities. Wide beam angle 300° ensures even illumination of the room.
