

Photoelectric sensor multi-pack

E3F1 M18

The three most common types of photoelectric sensors are now also available in a multi-pack combination

This offers the following advantages:

- Simplified inventory planning, ordering & product administration
- Reduced warehousing and logistic cost due to less storage space
- Attractive pricing

For more information on pricing please contact your local Omron office or distributor

industrial.omron.eu

Included in each multi-pack are:

- 10 x E3F1 sensors
- 10 x Mounting nuts

E3F1 M18 photoelectric sensor multi-pack

The E3F1 M18 sensor is presented in a compact housing. It offers high protection against electromagnetic interference and high ambient light immunity.

Our End Users and OEMs employ them in an extensive range of applications for:

- Packaging
- Material Handling
- Ceramics
- Food & Beverage

Sensors

Sensor type	Sensing distance	Connection method	Model PNP output
Retro-reflective * 	 0.1 to 3 m with E39-R1S	M12 connector	E3F1-RP21-10
Diffuse-reflective 	 100 mm	M12 connector	E3F1-DP21-10
	 300 mm	M12 connector	E3F1-DP22-10

*The Reflector is sold separately.

When ordering, 1 piece = 1 multi-pack (10 sensors)
