1 Esmi Impresia Base with Sounder

Esmi Impresia Base with Sounder (FFS06741016) is an addressable fire base with a built-in sounder and an isolator module in its body. The fire base is designed for installing in addressable fire alarm systems with Esmi ELC loop controller supporting Schneider Electric communication protocol. Esmi Impresia Base with Sounder fire base supports 32 different tone types at two sound levels. The tone type and sound level are programmed from the control panel. The device is compatible for operation with Esmi Impresia addressable detectors series: Esmi Impresia Heat Detector (FFS06741002), Esmi Impresia Smoke Detector (FFS06741001) and Esmi Impresia Multicriteria Detector (FFS06741003). The device is designed for easy installation and consists of two parts: a mounting plane basis and a sounder as a body with a factory mounted fire base. EN 54-3 for indoor use.

1.2 Installation

Attention: Turn power off the loop circuit before installing the base!

1. Choose the proper place for installation of the device.

2. Set the module address using programmer or directly from addressable fire panel.

3. Fix the mounting plane basis on the ceiling of the protected premises using fixings according the mounting surface.

4. Run the loop wires and fix the sounder body to the mounting basis using the supplied screws in the spare parts kit.

5. Connect the fire base to the fire panel using the wiring diagram.

6. Insert a detector - Esmi Impresia Heat Detector (FFS06741002), Esmi Impresia Smoke Detector (FFS06741001) and Esmi Impresia Multicriteria Detector (FFS06741003) - into the fire base and rotate clockwise until it drops into place - the short mark on the base fits with that on the sounder body. Continue to rotate the detector until its mark coincides with the long mark on the base - a click is heard.
   Note: The mounted detector on the Esmi Impresia Standard Base (FFS06741018) with sounder is assigned at different address to the control panel!

7. Program the sounder parameters.

8. Test the sounder for proper operation.
